SALONE DEL MOBILE, MILAN APRIL 2008

Italian Design David Byrne
First Supper Productivity

WA7, a small angular shaped light fixture

Design: LEDDESIGNINNOVATION

www.leddesigninnovation.com

Calla, is a lounging chair to be used in- and outdoors. Different types are produced, with patterns, integrated heating, lighting or even with loudspeakers that make the whole seat tremble and shake. In Milan one Calla will sport Swarovski crystals. Design: Pudelskern Space Agency, www.pudelskern.at

S Table, a round or oval table with a S-shaped twisted stand. The mould gives shape to its unusual design through self-rotating multiple openings. The stand is provided with adjustable feet.

Design: X. Lust for MDF Italia

www.mdfitalia.it

GLOBUS, in the hustle and bustle of the modern office, everyone tries to divide their time as flexibly as possible. Globus is a mobile workstation (flexi-station) in two guises. In its closed form it hides its function and excites curiosity. In its open form, the workstation is inviting and multifunctional. Design: Michel van der Kley for Artfort, www.artfort.com

Sofa Lamp, by taking the traditional furniture design of the Chester sofa out of context and giving it a hint of humour, the sofa lamp has the potential to become a great classic of the lighting industry.

Design: CudeSac for Moooi
